Understanding Child's Drawing

Facilitator's bio: Carol is an experienced educator in Early Childhood Education (ECE), Infant and Toddler (IT), and Special Needs (SN), with over 18 years in the field. She specializes in multiple intelligences and holds a postgraduate degree in Neuro-Psycho-Pedagogy, enabling her to evaluate, support, and follow up with individuals of all ages who have cognitive disabilities. Additionally, Carol is an Art Therapist who values the art-making process, understands the significance of its stages, and recognizes the importance of non-verbal expression through art.

Workshop description: Children express their feelings in various unique ways. In this workshop, professionals will enhance their ability to recognize children's emotions and feelings through the detailed analysis of their drawings.
